- MORE:** Founded twenty years ago as the United States affiliate of Green Cross International, Global Green USA is dedicated to helping the people, places, and the planet in need through catalytic projects, transformative policy, and cutting-edge research. The organization's signature programs include greening affordable housing, schools, neighborhoods, and cities as well as rebuilding communities that have suffered from the impacts of climate change, sea level rise, and environmental degradation. As the world enters a new generation of heightened environmental consciousness, Global Green USA is proud to announce its landmark new phase of development, aptly titled Global Green USA 2.0.

Within this new and critical juncture, Global Green USA will scale its global social impact exponentially over the next twenty years, by focusing its ongoing advocacy and community work to protect human health, improve quality of life, and safeguard the planet for future generations. Global Green USA 2.0 will help nations across the world implement effective strategies that advance green urbanism to increase access to healthier, more vibrant communities. Additionally, Global Green USA 2.0 will foster educational programs that cultivate a greater collaborative resiliency and response to the ramifications of climate change.
